Workflows com Git

Módulo VI

Workflow é um termo inglês que significa **fluxo de trabalho**

Com os **workflows** do **git** trabalhamos de maneira mais
consistente e produtiva

Workflows com Git

Centralized

Feature Branch

Gitflow

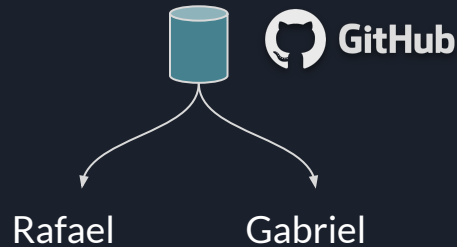

Centralized Workflow

Todos os desenvolvedores trabalham na branch main

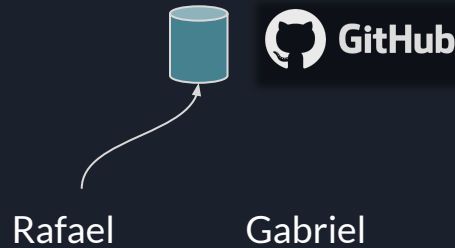

Centralized Workflow

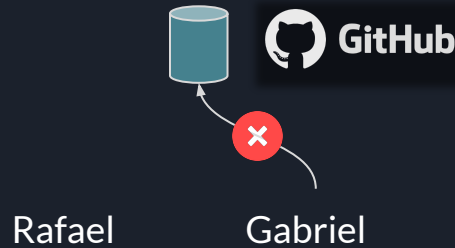

Centralized Workflow

Centralized Workflow

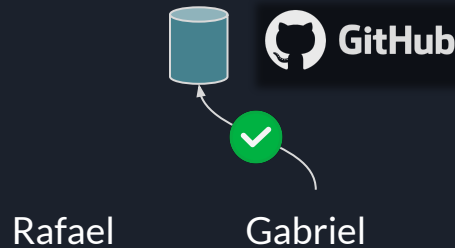

Centralized Workflow

```
git pull origin main --rebase
```

Centralized Workflow

```
git push origin main
```

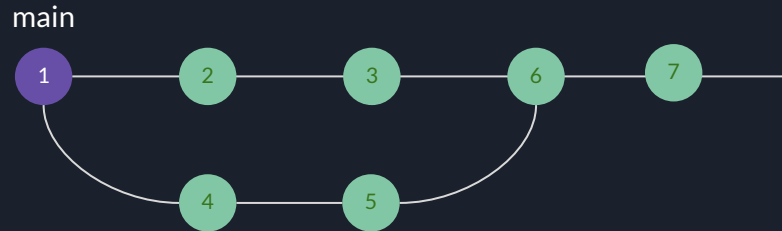

Feature Branch Workflow

Todos os desenvolvedores trabalham com novos recursos utilizando uma nova branch

Feature Branch Workflow

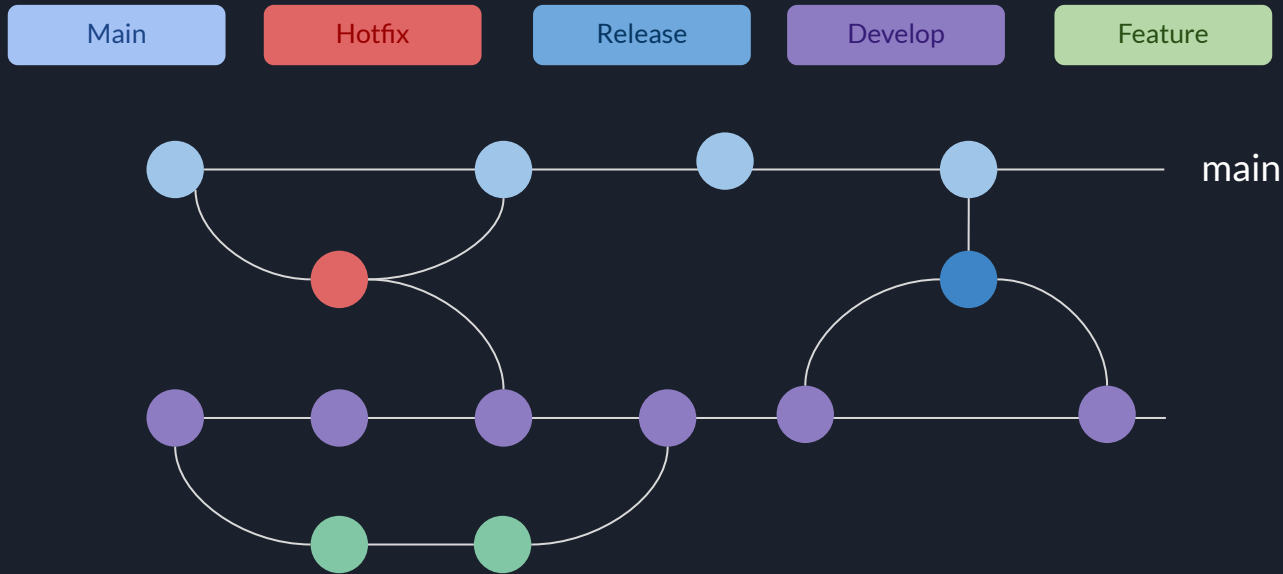

Gitflow Workflow

Todos os desenvolvedores trabalham com um modelo estrito de branches projetado em torno do lançamento do projeto

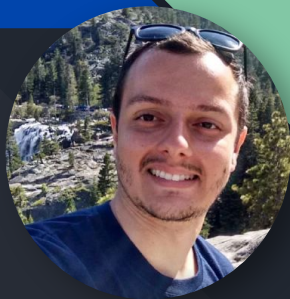

Gitflow Workflow

<> Bora para cima!!!! </>

#techacademy #mecomprometo
